Few of our leading clients:

**“ TOTAL SOLUTION FOR
ANY TYPE OF LAND SURVEYING
AND OUR REACH IS NOW
BEYOND THE COASTLINE !”**

To constantly remain as a front runner in the field of multi-disciplinary surveying.

Message from the management :....

I graduated from Sabaragamuwa University of Sri Lanka and represent the young generation of the professional Surveying community in Sri Lanka

I am one of the Surveying science graduates who belong to the very first batch of the faculty of Geomatics – Sabaragamuwa University which is a controversial milestone of the island's Survey profession.

All the members of our team are also professionally and academically qualified team players who are capable of tackling any challenge occurring in the field.

Our team is not only young and energetic but also well acquainted with the state of the art technology in this era of Geomatics.

Currently we are involved in Construction Supportive Survey services and providing total solutions for land based Surveying tasks.

But now we are in the process of restructuring the company to expand our services to further avenues such as Hydrographic Surveying, Geodetic Surveying, modern applications of Remote Sensing, GIS etc.

Due to our trusted service concerning the accuracy, punctuality and quality we were able to establish an exclusive clientele within a short period of 8 years which consists of leading government organizations, local and private companies.

Today we are proud to be where we are and anticipate to constantly remain as a front runner in the field of multi-disciplinary surveying.

Nirosan Warnakula
Managing Director

Our vision

To constantly remain as a front runner in the field of multi-disciplinary surveying.

Our mission

Executing every job we undertake with the utmost accuracy and quality by utilizing our specialized knowledge.

Who we are

Lanka GPS (PVT) Ltd is one of the leading Surveying firms operating in Sri Lanka as of today.

We have a specialized team of professional surveyors who are highly qualified and experienced.

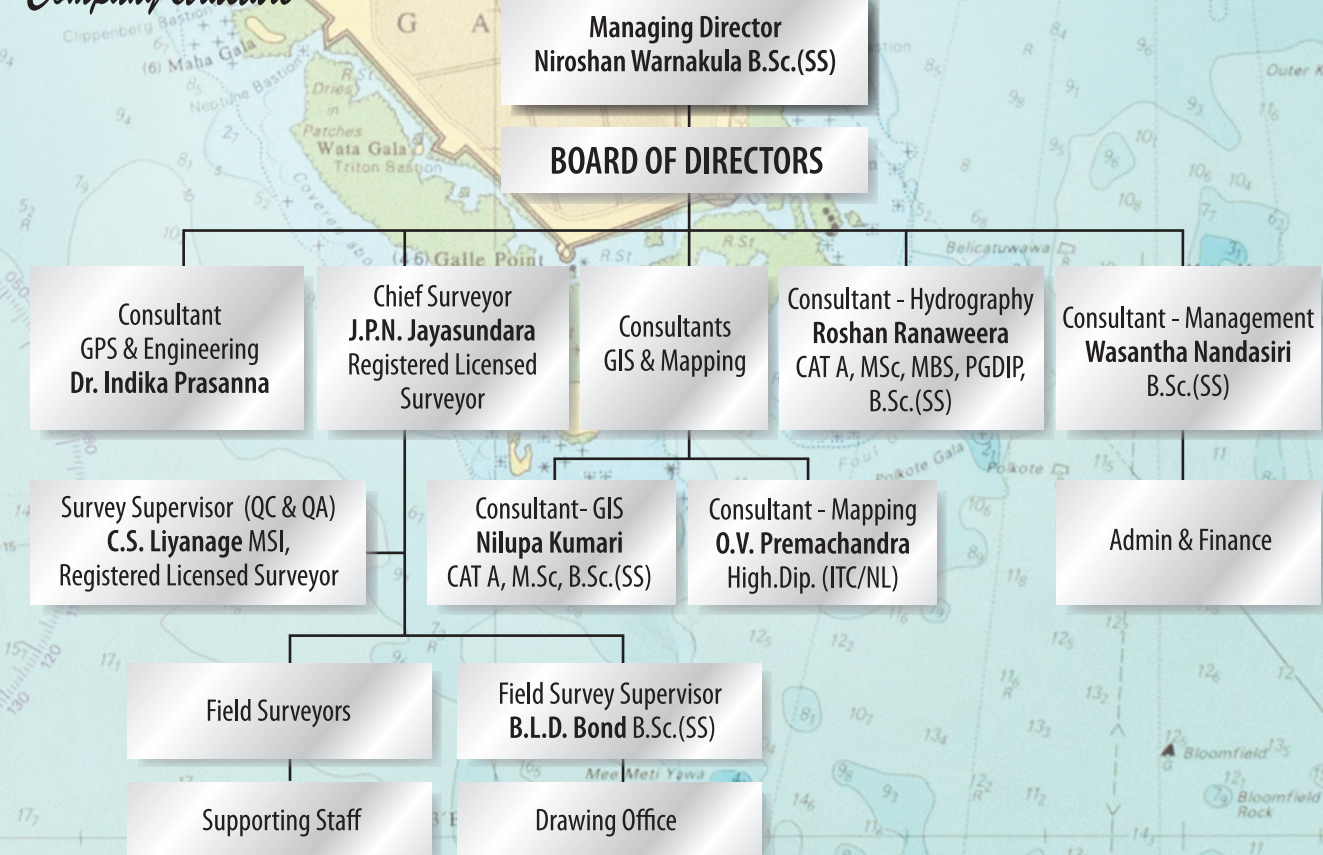

The Company was originally established in 2007 as “Lanka Geomatic Precision Surveys” (Lanka GPS) by Mr. U.P.N. Warnakula, the founder who is also the present Managing Director of the Company and with the development of the Company it was later renamed as Lanka GPS (PVT) Ltd in the year 2012.

The Company has rapidly grown to a fully-fledged surveying Company with a wealth of experience by handling various types of surveys throughout the Island.

Under the recent restructuring of the company, Lanka GPS has expanded their scope of services to carry out Hydrographic Surveys and Remote Sensing & GIS related services.

Lanka GPS (PVT) Ltd is the first choice for surveying because of our unique blend of high quality instruments with state of the art technology and our team of dedicated professional staff which offers efficient solutions to every client who seeks our services.

Company structure

What we offer

Pre – Design Services

- ✦ Construction Setting out
- ✦ Topographic Surveys
- ✦ Corridor Route Surveys
- ✦ Easement Surveys
- ✦ Road Layout Surveys
- ✦ Geodetic Control Surveys
- ✦ Earth movement Monitoring Surveys
- ✦ Beach profiling

Construction Services

- ✦ As-Built Surveys
- ✦ Volume Calculations
- ✦ Profile Surveys
- ✦ Road Surveys
- ✦ Earth movement Monitoring Surveys

Hydrographic Surveys and related services

- ✦ Near shore and offshore Surveys
- ✦ Inland water bodies Surveys
- ✦ Canals and river surveys
- ✦ Navigational route surveys and designing
- ✦ Coastal surveys and coastal erosion monitoring
- ✦ Oceanographic equipment deployments

Remote Sensing and GIS Applications related services

- ✦ GIS database creations and maintenance
- ✦ Remote sensing applications for Land Surveys
